

## SAVE BIG WITH MORE EFFICIENT ELECTRONICS.

Upgrading to energy-efficient consumer electronics is a simple and effective way to reduce energy usage and save money. In particular, new computers and monitors that shut off when not in use represent a great opportunity for savings — as much as 75% savings for some products. Overall, ENERGY STAR® certified office products use about half the electricity of standard equipment!

Potomac Edison's Energy Solutions for Business Program offers incentives per unit installed to help offset the cost of a project from our predetermined lists of options.

### EQUIPMENT AVAILABLE

- ENERGY STAR certified monitors, computers
- Imaging
- Small network software (network power management enabler)
- Uninterruptible Power Supply (UPS)

### HOW TO GET STARTED

CALL **855-801-5803** AND A TECHNICAL EXPERT WILL ASSESS YOUR FACILITY, PROVIDING ENERGY-EFFICIENT RECOMMENDATIONS.

1. Register and apply online at **[energysaveMD-business.com](http://energysaveMD-business.com)**.
2. Pre-approval is required prior to purchase and installation of the equipment.
3. Install approved equipment and submit final application with documents.
4. Complete the post-inspection from our program team to verify savings.
5. Receive your incentive within approximately 90 days of your completed submission.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to **[energy.maryland.gov/Pages/Facts/empower.aspx](http://energy.maryland.gov/Pages/Facts/empower.aspx)**.

By participating in energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency or peak demand reduction measures for which incentives were provided by the Company.
