

Potomac Edison Energy Solutions for Business Agriculture Incentives

Efficient Dairy Equipment			
Equipment Description	Incentive	Unit	Equipment & Eligibility Requirements
Automatic Milker Takeoffs	\$90	Per Unit	Purchase and installation of a new automatic milker takeoffs to replace pre-existing manual takeoffs on dairy milking vacuum pump systems.
Dairy Scroll Compressors	\$1,000	Per Unit	Purchase and installation of a new scroll compressor to replace an existing reciprocating compressor or to be installed in a new construction application.
Livestock Waterers	\$60	Per Unit	Purchase and installation of an energy efficient livestock waterer that is thermostatically controlled and has minimum of two inches of factory-installed insulation.
Dairy Vacuum Pumps VFD Controls	\$1,000	Per Unit	Purchase and installation of VFD and controls on dairy vacuum pump or purchase of a dairy vacuum pump with variable speed capability. Pre-existing pumps with VFDs are not eligible for this measure.
Low Pressure Irrigation	\$100	Per Acre	Purchase and Installation of low-pressure irrigation system.
Heat Reclaimers	\$1000	Per Unit	Purchase and installation of heat reclaim units on dairy parlor milk refrigeration systems.
Engine Block Heater Timers	\$25	Per Unit	Purchase and installation of an engine block heater timer.
Dairy Refrigeration Tune-Up	\$200	Per Unit	Tune up of refrigeration systems for agriculture applications.

High Efficiency Ventilation Fans			
Equipment Description	Incentive	Unit	Equipment & Eligibility Requirements
High Efficiency Ventilation Fans	\$215	Per Unit	Purchase and installation of a new or replacement of standard efficiency ventilation fans with high efficiency ventilation fans.
High Volume Low Speed Fans (Destratification)	\$25	Per Ft. of Fan Blade	Purchase and installation of new or replacement of conventional circulating fans with High Volume Low Speed (HVLS) fans. HVLS fans are a minimum of 16 feet long in diameter and move more cubic feet of air per watt than conventional circulating fans.
