

Building Tune-up

Optimize building energy performance with incentives, a tailored action plan and energy-saving services.

Saving energy is smart business. Potomac Edison's Building Tune-up Program helps you reduce costs by optimizing energy efficiency in commercial and industrial facilities. The program offers an initial building assessment, energy-saving services, plus incentives and an action plan to improve equipment and system performance.

Sample Upgrades Include:

- Calibration of building systems, including energy management, lighting and HVAC
- Diagnostic testing of major systems and equipment
- HVAC controls to optimize rooftop units and air handlers
- Refrigeration and chiller system controls
- LED lighting, sensors and optimization schemes
- Other program-eligible improvements

Financing Now Available:

- Loan amounts from \$2,500 to \$250,000
- Interest rates of 0% to 2.99%
- Flexible repayment terms ranging from 12 to 60 months

Program Participation

From enrollment to incentives, the program team will help you find the right energy efficiency solutions for your facility.

1. Enroll

Provide basic information about your building.

2. Analyze

Receive real-time evaluation of efficiency improvements bundled with whole-building strategies.

3. Implement

Work with a Potomac Edison Program Ally to complete the scope of work.

4. Verify

Complete a post-installation inspection process with the program team.

5. Final Payment

Receive your financial incentive based on the final scope of work and calculated energy savings.

Customer Eligibility

- The Building Tune-up Program is available for most non-residential project types, including commercial, institutional, industrial and multifamily common areas.
- Participants must complete the installation of multiple qualifying improvements to be eligible for program incentives.
- Requires that improvements be installed by our Closed Network Provider, **HBS Solutions, Inc.**

EmPOWER Maryland programs are funded by a charge on your electric bill. EmPOWER programs can help you reduce your electricity consumption and save you money. Go to energysaveMD.com to learn more about EmPOWER and how you can participate.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
