

# Food Service Equipment Savings

Receive incentives and support to improve energy efficiency in your commercial kitchen.

Buildings with commercial kitchens use significant amounts of energy. Potomac Edison's Energy Solutions for Business Program offers incentives to help your facility reduce consumption and costs. Participants can apply for incentives that cover up to 75% of total project costs. Installing high-efficiency kitchen equipment can bring your business closer to a more sustainable future.

## Save up to 75% on Commercial Kitchen Upgrades

From labor to installation costs, you can save when you upgrade equipment including:

- Combination and convection ovens
- Fryers, griddles and steam cookers
- Reach-in freezer/refrigerator upgrades
- Ventilation, heat controls and more

For a complete list of eligible measures, please scan the QR code.

## Program Eligibility

Typical participants include grocery and convenience stores, hospitals, lodging facilities, restaurants, schools and other facilities with commercial kitchens. Applicants must receive pre-approval prior to installation.

Ready to reduce energy consumption and costs for your business? Reach out today.

EmPOWER Maryland programs are funded by a charge on your energy bill. EmPOWER programs can help you reduce your energy consumption and save you money. To learn more about EmPOWER and how you can participate, go to [energy.maryland.gov/Pages/Facts/empower.aspx](http://energy.maryland.gov/Pages/Facts/empower.aspx).

By participating in energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency or peak demand reduction measures for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.
