\*Potomac Edison's Energy Solutions for Business Program is covering the cost of the training portion of this certification until the customer successfully completes said training and provides us with their certificate of completion (CoC). The program will cover the exam cost once the customer has provided their CoC for the training.

\*\* CFM and CDP: Applications for these certifications will only be accepted once the customer is ready to schedule the exam with the certification provider. After enrollment, the customer has 90 days to take the exam. If the exam is not completed within this timeframe, the customer will be billed for the full cost of the exam.

\*\*\*Customer must complete all four courses associated with FMP to get the credentials
