A FirstEnergy Company

EmPOWER MARYLAND

Energy Advisors at Your Service

A sustainable business is smart business.

Be a part of Maryland's clean energy future with savings and support from Potomac Edison's Energy Solutions for Business Program. Whether your goals include energy savings, electrification, emissions reduction or all three, our full team of engineering experts is here to help you make smart energy decisions and reach your long-term sustainability goals.

In addition, commercial and industrial customers can access low-interest financing, incentives and services for cost-saving improvements.

Support at Every Step

Whichever aspect of the program you're participating in, energy advisors are available to:

- Determine eligibility, answer your questions and assist with application.
- Explain benefits and incentives.
- Perform benchmarking and evaluation.
- Offer personalized solutions and technical support.
- Manage your pipeline of projects.

Energy Advisor Services Include:

- Bill analysis report
- Facility benchmarking and baseline measurement
- Energy master planning sessions
- Facility reviews and assessments
- Project development resources
- Research for incentives, funding sources and options
- Project calculations
- Project design and technical support
- Support for internal project advocacy
- Contractor research and introductions
- Ongoing monthly energy usage review options
- Sustainability and carbon reduction support and reporting
- Personalized Application Concierge guidance throughout the entire application process
- **Help accessing interest rates of 0% to 2.99% for financing loan amounts from $500 to $250,000**
